

## EDUCATION

---

**B.A. Computer Science, Minor: Graphic Design · Pace University — Seidenberg School** **May 2026**  
**Awards:** Dean's List (Spring 2023, 2025 & Fall 2025) · Seidenberg Civic Engagement Award

## SKILLS

---

**Design:** Figma (UI/UX & Prototyping), Adobe Photoshop & Illustrator, Brand Identity, Typography, Visual Systems  
**Development:** Python, JavaScript, React, Flask, Java, SQL, REST APIs, AWS (S3, DynamoDB), Git/GitHub  
**Tools & Methods:** Unity, Agile, SDLC, User Personas, Wireframing, Gemini, Claude

## HACKATHONS & PROJECTS

---

**PASTABLE — Brand Identity System · Pace University Graphic Design** **Spring 2026**

- Designed a complete brand identity for a conceptual pasta food festival including logo system, color palette, typography, and brand voice built around the concept of pasta shapes as a recurring visual motif across all touchpoints.
- Developed audience personas and a creative brief to ground visual decisions in user research, ensuring the brand felt authentic to a community-driven, food-curious audience.
- Extended the system across merch (tote bags, plates, buttons), event signage, and role-differentiated badge designs (Attendee, Staff, Speaker, Vendor) each using a distinct pasta shape as an icon.

**Kiskadee Drive Apartments — Web & Visual Design · Collaborative Project** **July 2025 – January 2026**

- Co-designed the visual identity and web presence for a luxury vacation rental property, establishing a warm, travel-inspired aesthetic using a curated color palette (amber, earthy neutrals, deep brown) and a typographic system pairing Bebas Neue with Arapey.
- Led the design direction for the rental listing site built on WordPress, translating the brand's Caribbean-inspired visual language into a cohesive, guest-facing digital experience.
- Collaborated closely with a development partner, owning the design area while coordinating across the full project to ensure visual consistency from brand assets to live web pages.

**Twitter Clone** December 2025

- Built a full-stack social platform with a Flask/Python backend and RESTful APIs to enable scalable data storage and retrieval for user-generated content
- Structured DynamoDB schemas and S3 object storage to support fast, reliable content delivery across the platform

## LEADERSHIP

---

**Setter Stage (Student Theater Organization, New York, NY)** **September 2024 – May 2026**  
President

- Led a 4-person executive board and produced 6 annual theatrical events coordinating logistics for 70+ performers and 100+ attendees.
- Managed a \$4,000+ annual budget, coordinating purchasing, reimbursements, and vendor communication.
- Oversaw bi-weekly email marketing, social media updates, and space reservations to keep 80+ student members informed and events running on schedule.

## EXTRACURRICULARS

---

**Setter Stage (Theater Organization) - President, National Society of Black Engineers – Member, Setters Unscripted (Improv) – Member**
